Customer sent the following -

Dear Corporation Commission Members,

I am a resident of South Chandler and wanted to write to you today to express my concern about the proposed above ground power lines from Schrader substation on Ocotillo Road just east of Arizona Avenue south to the Gila River Indian Reservation near homes, businesses, churches and schools. I am assuming that the need for these lines is to help provide power for the Price Road businesses, and if so, I highly support that, but even if that is not the case, the lines need to be buried. We are all aware of the health and safety concerns much less the aesthetics issues. If these power lines were going to be installed within this close of a proximity to any of the Arizona Corporation Commission members' homes, I am certain the vote would be to bury the lines.

Thanks for your time,

Kim Bannon
